The Duh! Book of Management and Supervision

Gerri King 2014-02-25 Managerial styles are influenced by habit, familiarity, and workplace culture. It's no wonder that well-intentioned professionals doing their best to be good organizational leaders often repeat unhelpful supervisory practices experienced in their early careers, even if they disliked them at the time. In the *DUH! Book of Management and Supervision*, the author disagrees with many accepted leadership principles (unabashedly referring to them as myths) and makes new and different approaches easier to imagine. Her challenging and controversial concepts illustrated with poignant stories suggest common-

sense and immediately applicable alternatives more suitable in today's workplace.

AUUGN 2004-09

Art Savvy Tj. Aitken 2013-08-23 Art Savvy is a systematic approach to understanding art. It gives you methods to assess a design and really see what the artist was doing. Unlike chaotic art writings, terms are clearly defined, categorized, organized and illustrated. It is designed to answer questions like: What things will allow me to understand art? What are the basic elements? What is concept art? Can you "read" a work of abstract art? Visual literacy is the ability to interpret, negotiate, and make meaning from information presented in art work. Art Savvy gives you this. Defining Terms: Often art terms are not clearly defined, are used,

interchangeably or get mixed up with other types of analysis. For a thorough exploration of all aspects of art, photos of great works are referenced with color keyed notations to illustrate the 5 easy pieces: 1. Design Elements- Visual grammar, line, shape, form, mass etc. - definitions & how to see them. 2. Organization Principles- How elements are arranged and how this effects the concept. 3. Style- Relation to other groups of work and formulas for design. 4. Technique- How methods and materials are used to impact the concept. 5. Concept- What this piece about. What major themes and elements were used. Assessment techniques in each section of Art Savvy will train your eye to always see these 5 aspects of any artwork. It is not attempting judgments of relevance, philosophy, spiritual meanings and other ethereal aspects that a work may convey. This text poses the question: "What is the basic concept here?" but sticks to pure analysis

and leaves all judgment to you and the experts.

This field guide is a mini textbook on design principles that will let you understand art!

Richard Bangs Adventures with Purpose Richard Bangs 2010-10-22 Running such wild rivers as the crocodile-infested Tekaze in Ethiopia, Richard Bangs used to lived for the adrenalin, for the rush of reveling in the misery of hardship and sidestepping death around every bend. Now a respected conservationist, he still travels to demanding exotic environments, but with a new, more sober objective: he wants to save these special places. Bangs' personal experiences of ""witnessing many special places preserved and lost"" led him to write Adventures with Purpose, and the book follows the author to Bosnia, Libya, Panama, the American West, Rwanda, Thailand, and more as he seeks out disappearing cultures, peoples, habitats, and

ecosystems particularly rivers so that he can show readers that the loss of these special places will be a catastrophe. Written in the vivid, intimate style that made his earlier books both critical and commercial successes, *Richard Bangs Adventures with Purpose* is an unforgettable composite portrait of a world in peril and an inspiring guide to rescuing it.

Buck Rogers in the 25th Century: A TV Companion (Hardback) Patrick Jankiewicz

2015-11-30 This is the HARDBACK version. Buck Rogers in the 25th Century (1979-1981) premiered on American television in September 1979. The story followed a twentieth century astronaut revived after 500 years of suspended animation to become Earth's greatest hero. Created by Glen A. Larson and Leslie Stevens, the new series starred

Gil Gerard, Erin Gray, and Felix Silla. Gerard looked to the past to prepare for his future production. As Executive Producer of another science fiction series, Battlestar Galactica (1978-1979), the early cancellation of the failed series left him with a quasar of props, costumes, sets, special effects film footage, and even a rejected model spacecraft designed by Ralph McQuarrie. He hit on the idea of recycling the artifacts into a less showy series that premiered to the delight of audiences. Viewers thrilled to a seemingly endless parade of notable guest stars, such as Henry Silva, Joseph Wiseman, Jack Palance, Roddy McDowall, John P. Ryan, Richard Lynch, Cesar Romero, Frank Gorshin, Julie Newmar, Jamie Lee Curtis, Vera Miles, Sam Jaffe, William Smith, Sid Haig, Jerry Orbach, Richard Moll, Ray Walston, Gary Coleman, Amanda Wyss, and Mary Woronov. children who have gone through the Street Girls Aid's programs, and represent the twenty years that Street Girls Aid has consistently served children on the street. *Stories From The Streets* brings together a careful selection of relevant information, lessons learned and for organizations already working in the field of vulnerable children, or those yet to do so, a guide for their project implementation. This book has intentionally moved away from dwelling on the many challenges facing the street children and rather, concentrates on the successes. After reading this book, readers will have gained a broader perspective of issues and the realities of street children. A portion of the proceeds from the sale of this book will create an on-going source of income to support the next 20 years of Street Girls Aid mission, "Serving Street Children - Impacting Generations."
